

Our most recent guidelines came from June 2020 from the State of Colorado Department of Health.

We ask for your patience and flexibility as we move closer to camp and receive new guidelines. We will need to go through and see what changed and how that might affect camp operations. We will stay in contact to update you on any changes as we approach camp.

LIMITING EXPOSURE

In order to ensure the health and safety of our campers and staff, we will be asking families to limit their travel the two-weeks prior to camp.

This means limit trips to others' houses, grocery stores, sports, and anywhere else your errands might take you.

FEBRUARY TEASER #2

Look for the following in the upcoming issue:

- Camp Family Groups

HEALTH PRE-CAMP

We will be sending each family a health check form to fill out at home prior to leaving the house. **Bring this with you to camp!**

When you arrive to camp, our staff will do the final check prior to entering. We will do as much at the car as we can; temperature, health checks, lice checks, health questionnaire, etc.

If there are symptoms or contact with someone positive, the nurse will be happy to talk with you.
