

CAMP CHIEF OURAY

YMCA of the Rockies

UPDATES

Volume 3, Late February

Our most recent guidelines come from June 2020 from the State of Colorado, we expect these guidelines to be updated in the coming months.

This means something we say today for a safe summer could change as we get closer to opening day, and we will do our best to make sure updates come out consistently.

Family Groups

At this time, we are limiting the number of campers per cabin. Traditionally a cabin hosts 8-10 campers; this summer we are limiting to 6-7 campers. Each cabin will have 2 staff members.

Cabins will be placed in coed family groups of no more than 25 campers by age range for the week.

Activities

Family groups will rotate through camp zones throughout the week and do all activities together. Each zone and all activity materials will be disinfected between family groups.

Meals

Family groups will eat meals together. To comply with COVID-19 guidelines and minimize exposure, meal times will stagger to keep family groups separate. More information about meals to come in March.

MARCH TEASER
